INTRODUCTION.

1. The returns of the External Trade of the Presidency of Bombay for the year 1874-75, or for the twelve months from 1st April 1874 to 31st March 1875, are herewith submitted for general information.

PORT OF BOMBAY.

2. The value of the whole External Trade of the Port of Bombay for the year 1874-75 amounted, exclusive of stores and treasure on account of Government, to Rs. 47,16,20,702, showing an increase of Rs. 4,27,79,299 against the value of the trade of the preceding year, which amounted to Rs. 42,88,41,403. These values are exclusive of the Interport Trade between Bombay and other British ports within the Presidency. The aggregates shown above are divided in the following manner:—

Names of Divisions.	Year 1873-74.	Year 1874-75.	Increase in 1874-75.
	Rs.	Rs.	Rs.
Foreign External Ports	36,18,66,319	40,17,69,557	+ 3,99,03,238

Total...	42,88,41,403	47,16,20,702	+ 4,27,79,299

showing a total increase of 9·97 per cent. over the value of the trade of the previous year. In that year the proportion of foreign, including foreign Indian trade, and the trade of the ports in other Presidencies respectively to the total value, was 88·58 and 11·42 per cent., and in 1874-75, 89·58 and 10·42 per cent.

3. The increase in the trade with ports in other Presidencies is trifling, and the same will be noticed when the British coasting trade is treated.

FOREIGN EXTERNAL AND FOREIGN INDIAN PORTS.

Foreign Trade.

4. The total value of the several classes of the Foreign, including Foreign Indian Trade in 1873-74 and 1874-75, the average annual value for the quinquennial period, 1869-70 to 1873-74, and the differences in the separate periods, are shown in the subjoined table:—

*These totals are exclusive of Government Stores and Treasure.

5. In the above statement the total value of stores and treasure imported and exported on account of Government during 1873-74 and 1874-75 is exhibited, but they are excluded from the following remarks and tables, which relate only to private trade.

6. From the foregoing table it will be observed that the imports of merchandise for the year 1874-75 have exceeded those of 1873-74, by nearly 28 lacs, as also there has been an increase of nearly 18 lacs when compared with the average of the last five years. The imports of treasure show an increase of more than 129 lacs when compared with the previous year, and a decrease of about 22 lacs with the average of the five preceding years.

7. The exports of merchandise exhibit an increase over the former year of nearly three crores and over the average of the past five years of about a crore. With regard to treasure there is a decrease in comparison with the previous year as also with the average.

IMPORTS FROM PRINCIPAL COUNTRIES.

8. The total value of merchandise and treasure imported from each principal country in the years 1873-74 and 1874-75, respectively, was as follows :—

9. The main fluctuations in the trade with each of the countries above named are specified below. The causes of increase and decrease in the principal items of trade will be given further on.

10. Amongst all the foreign countries the United Kingdom (including Suez) stands first. The increase was principally attributable to larger imports of treasure, cotton twist and yarn, machinery, and metals. Decreases occurred in cotton piece goods, papers, railway materials, and woollen piece goods. The increases and decreases under each of the heads above specified are shown below :—

Names of Articles.	Total Value in 1873-74.	Total Value in 1874-75.	Increase in 1874-75.

Woollen Goods	22,23,967	19,95,802	2,28,165

Austria.—The increase is due to increased imports of aniline dyes, paper, and twist and yarn.

France.—The large imports of liquors and silver account for the increase. There were no imports of silver during the last two preceding years from this country.

Other Countries in Europe.—The increase is mainly due to the importation of gold from Malta and Turkey in Europe, none being imported from Malta during the last four years.

Egypt.—The trade with this port shows an increase in all the items, which is owing to one steamer having brought cargo direct from Alexandria to this port at the commencement of the year under report.

Mauritius.—The increase is owing to large imports of treasure, principally silver, which is said to be imported for purchasing grain for exportation to that place. Sugar, the chief article of import, shows a decrease.

America.—The imports of grey drills, gum-rosin, kerosine oil, and gold have increased. The importation of treasure was *nil* during the last ten years.

Red Sea.—The increase is mainly due to large imports of gold. Gums and silver show a decrease.

Ceylon.—Silk—raw, shows an increase, and the importation of coffee, cocoanut-oil, sugar and sugar-candy, and tea a decrease.

China.—Silk—raw, silk piece goods, firewood, umbrellas, and sugar-candy are the items of increase, while glass-ware and tea show a decrease.

Persian Gulf.—Horses, grain and pulse, jewellery, silk—raw, shells, wool—raw, and treasure show an increase, and cotton—raw, and dried fruits have decreased.

Cutch and Kattywar.—Increase in cotton—raw, and decrease in grain and pulse, wool, and treasure.

Goa, Damaun, and Diu.—The importation of betelnut, dried fruits, and old iron account for the increase.

Foreign Konkan.—Betelnut and firewood have increased during the year.

11. With the undermentioned countries the trade shows a decrease as compared with the last year :—

Italy.—The total decrease in merchandize is Rs. 7,04,541, which is attributed to less imports of cotton piece goods and liquors from Genoa.

Eastern Coast of Africa.—Less importation of ivory, spices, and gum is the cause of decrease; treasure however, shows an increase of more than Rs. 50,000.

Aden.—The chief items of decrease were coffee and ivory. Gums and spices show an increase.

Mekran and Soumeenee.—Out of Rs. 43,259, decrease of Rs. 30,130 is in wool—raw, and the remainder, Rs. 13,129, is made up by the decrease in other articles of merchandise and treasure.

Straits Settlements.—The decrease was almost entirely in tin, silk—raw, and gums. The items which show an increase are ivory, lac, and treasure.

Australia—The decrease is mainly due to less imports of gold. In this year copper (Australian cake) was imported to the extent of Rs. 83,014, while there was none during the two preceding years.

Pondicherry and Mahé.—The chief decreases were in spirits and wines. No spirits were imported during the year under review, while the importation of the same was Rs. 29,183 during the previous year.

The decrease in trade with other countries in Asia being nominal, does not call for any remark.

Exports to Principal Foreign Countries.

showing a net increase of Rs. 2,68,64,601.

13. The general increase in the value of the Export Trade is due entirely to the exports of cotton—raw, opium, and seeds.

14. The following tabular statement is given to show the state of the trade in cotton—raw, at Bombay during the last ten years :—

Years.	Total Quantity of Cotton, raw, exported from Bombay to Foreign External Ports.		Cotton, raw, exported to the United Kingdom.

The Appendix No. 1, given at the end of the report, supplies full information with respect to the above.

15. The subjoined table exhibits the articles in which occurred the main fluctuations of trade with the United Kingdom, including Suez :—

Ivory	11,44,246	8,32,677	3,11,569
Wool, Raw	67,89,308	61,36,839	6,52,559

United Kingdom and Suez.—The chief increases were in cotton, country-galls, opium, linseed, and shawls. Wheat, hides and skins, ivory, and wool are the items of decrease.

Austria.—Coffee increased by Rs. 11,315, cotton by Rs. 15,28,523, wheat by Rs. 1,32,250, and wool by Rs. 13,545. A trade in wheat appears to have newly sprung up with Trieste. Wool also was not exported from here during the last three years, the exports of which amounted to Rs. 2,690 in the year 1870-71. Hides and skins decreased to the extent of Rs. 56,866.

France.—The increase is Rs. 1,25,16,981, out of which Rs. 1,06,51,436 is in the exports of cotton, and the remainder is made up by coffee, wheat, teelseed, shawls, treasure, and other minor articles.

Germany and Russia.—Large exports of cotton account for the increase.

Malta.—Increase is mainly due to the heavy exports of wheat during the year.

Eastern Coast of Africa.—Cotton piece goods of foreign as well as of Indian manufacture were largely exported during the year under review, and hence the increase.

United States.—Linseed and cloves show a remarkable increase in exports.

Aden.—Increase in country twist and treasure, while decrease in country piece goods and tobacco.

China.—The following are the items of increase, viz., opium, country piece goods, and sandalwood. There is a decrease in country twist and treasure.

Persian Gulf.—The increase is mainly due to large exports of coffee, cotton piece goods, rice, jingelly oil, sugar, and tea. Treasure shows a decrease.

Dutch and Kattywar.—The large exports of twist, cotton piece goods, grain, jute, oils, sugar and sugar-candy and treasure form the increase.

Goa, Damaun, and Diu.—The increase was in twist, cotton piece goods, and rice. Treasure also shows an increase of upwards of Rs. 27,000.

Other Countries in Europe, Japan, Java, Australia, and Foreign Konkan.—The fluctuations in the trade noted against these places in the table given above are not of such importance as to require special notice.

The trade decreased with Holland, Italy, Spain, Turkey in Europe, Egypt, Mauritius, Red Sea, Ceylon, Mekran and Sonmeanee, Laccadive and Maldive Islands, Straits Settlements, Turkey in Asia, and Pondicherry and Mahi.

Holland.—There were no exports to this country during the year under report. The trade with Holland first commenced in the year 1869-70, which continued up to the end of 1871-72. It was *nil* for the year 1872-73, largely increased from nearly 4 lacs in 1871-72, to nearly 23 lacs in 1873-74, principally in cotton, and is again *nil* this year, as if trade only existed every alternate year. It is strange, too, that there have been no imports during this or the last four years.

Italy.—The decrease is ... principally to the less exports of cotton. There was, however, an increase in other ... merchandise, chiefly in grain.

Spain.—The decr... there being no trade during the year to Barcelona and Cadiz, to which large export... made during the last year, amounting to upwards of 3 lacs.

Egypt.—The decr... in treasure. Last year silver was exported of the value of upwards of 5 lacs.

Mauritius.—The e... base is silver, during the previous year it was exported to the extent of 14 lacs, whi... rted during the year under report. There is, however, an increase in merchandise.

Red Sea.—Less exports of twist, cotton piece goods, tobacco, silk piece goods, and silver account for the decrease.

Ceylon.—The decrease is in grain and silver.

Mekran and Somneanee.—Less exports of rice and cotton piece goods during the year under review have caused the decrease.

Straits Settlements.—Principally the decrease is in cotton piece goods of foreign manufacture. Treasure and articles of Indian manufacture exhibit an increase.

Pondicherry and Mâhi.—The decrease of Rs. 27,571 is accounted for by less exports of cotton piece goods.

The decrease in the trade with other places being trifling, does not call for any remarks.

PRINCIPAL IMPORTS.

17. The foregoing table shows a recovery from the depression of the previous year, the increased value of the imports of merchandise amounting to Rs. 27,82,936, or 2·23 per cent. more than in 1873-74. Treasure also shows an increase of Rs. 1,29,61,130, or 37·75 per cent. more than the last year. The articles in which the largest increases occurred were apparel, arms, ammunition, &c., clocks and watches, cotton—raw, cotton twist, dyeing and colouring materials, fire-works, lucifer and other matches, machinery and millwork, copper, yellow metal, iron, steel, silk—raw, and silk piece goods. The articles which show much decrease are candles, coffee, cotton piece goods, flax—manufactures of, grain and pulse, ivory and ivory-ware, tin, paper, provisions, railway materials, sugar and sugar-candy, tea, wool—raw, and woollen piece goods.

INCREASE.

Apparel.—This item includes numerous petty articles liable to constant fluctuations. For the year under report foreign gold thread and lace form ¼th of the increase. This is owing to the low value, although the quality is very inferior to the Indian manufacture.

Arms, Ammunition, &c.—The increase is mostly in sporting gunpowder, the imports of which have exceeded those of the last five years by Rs. 51,000.

Clocks—and Watches.—The increase is wholly in common clocks and metal watches. The better class of watches find their way by post.

Cotton, Raw.—Larger imports from Cutch and Kattywar account for the increase. The imports from the Persian Gulf have fallen off owing to the low prices.

Twist and Yarn.—The increase is principally in No. 30 Water for hand manufacture. Though there has been a great increase in the number of spindles in the interior, the mills do not as yet turn out these higher numbers. The fall of prices during the past year continued with a further fall during the year under report, which tended to keep up the importations.

Dyeing and Colouring Materials.—There has been an increase in imports, principally in aniline dyes.

Fire-works.—The figure this year has considerably exceeded the average of the past five years.

Lucifers and other Matches.—The importation this year, though in excess of last year, is about the average of the previous five years.

Machinery and Millwork.—The demand has been principally to meet the requirements of the increased number of cotton mills, but there is a tendency to substitute machinery for hand-work wherever available. Sewing machines, for example, are now to be met with everywhere.

Copper.—This trade which had reached its highest figure of about 60 lacs in 1867-68, fell in 1873-74 to nearly 9 lacs. The present increase of upwards of 13 lacs more than doubles the figures of the preceding year, indicating a removal of the pressure of the high prices which have ruled for some years past. In April 1873-74 the price of copper in the London Market stood at £100 the ton, which continued up to December with slight variations, closing in March 1874 at £94 the ton. In June of the same year it fell to £91, rising in December to £98 and closing in March 1875 at £94 the ton.

Australian copper, of which the importation last year was *nil*, was *imported direct this* to the extent of Rs. 88,000 and nearly Rs. 2,00,000 also from the United Kingdom. The price which stood in April 1873 at £99 the ton declined after various fluctuations to £87 in March 1875.

Yellow or Mixed Metal for Sheathing.—This metal, the imports of which amounted to upwards of 28 lacs in 1867-68, fell to 7 lacs, or about ¼th, in 1873-74, the figure for the year under report shows an increase of nearly 5 lacs over that of the last year. Yellow metal mostly rises and falls with copper.

Iron.—Of the increase of more than 15 lacs, ⅓rd is in hoop iron and the rest in other kinds of wrought iron. Hoop iron is in greater demand year by year for pressed cotton bales, as the number of presses in the mofussil are increasing, and it is impossible, owing to the dry weather and the hot winds prevailing in March and April in the districts, to use rope lashings. Owing also to the increase in shipments by steamers, and the tonnage scale by steamers being 40 cubic feet instead of 50 cubic feet, as by sailings vessels, measurement of bales is all important and hoops hold bales tighter than lashings. In other kinds of iron and hardware the increase is entirely due to greater cheapness. This trade is always subject to great mutations. In 1872-73 it had fallen to 20 lacs, the iron market at home being much inflated and prices rising to an extreme entirely checking consumption. In the present year it has again risen to 38 lacs.

Steel.—A cheap description of steel, known as German or Milano steel, which is used as a substitute for Swedish, has been largely introduced into this market during the year under report, and hence the increase

The trade in metals in general is reviving, attributable mostly to the fall in prices at home and also to the stock-in-hand being exhausted.

Silk, Raw.—The importation of this article shows an increase of more than 7 lacs, as compared with preceding year, and exceeds by nearly the same amount the average of the previous five years.

Importations were encouraged by the limited demand in China from the European markets as also from the large out-turn of the crop. The market was glutted, and prices fell considerably.

Silk Piece Goods.—This trade has been forced for some time past owing to the Chinese weavers themselves entering into competition with the regular merchants, and consigning largely on their own account, so that the market is overstocked. The closing of the Rangoon markets, in consequence of rumours of war with Burmah, has led to further depression.

Treasure.—The year under report has been remarkable for the enormous and unprecedented influx of silver, the imports exceeding those of the previous by Rs. 1,05,89,776. The German Government, which has since the war been converting its silver currency into a gold one, sent us alone 47 lacs. That and the fear of further shipments had a marked effect on the exchange. The value of Council Bills kept down the cost of silver, and when they were nearly on a par, silver was often bought at once as a means of remittance to avoid the risk of an extra demand forcing up the price of Council Bills. The extra export of cotton (nearly 2 crores in excess) was greatly the cause of the extra import of silver and of gold. The cheapest medium of laying down funds immediately available was generally made use of. The fact that an unknown quantity of disposable silver was always hanging over the market reduced the value of silver to a lower price than was ever before known. It touched as low as 55⅝ per oz.

But besides this the production of silver has of late years increased largely, while there has been a decrease in the production of gold. Hence gold has risen in price. Almost all the English gold imported was sold before shipment, and therefore yielded a known exchange. Why gold was in such demand during the year under report is not clear, unless it was owing to the depreciation of silver and larger transactions in cotton with the interior, where gold still continues to be hoarded.

DECREASE.

Candles.—There is a decrease upon the preceding year and the average of the last five years. Kerosine oil, which is now used as a substitute, has been largely imported to the extent of a lac of rupees over last year.

Coffee.—There is a decrease in the importation of Mocha coffee, the trade of which is becoming nominal.

Cotton Piece Goods.—Although the importations of this year appear far below that of the preceding year, it is greater than that of the previous year, 1872-73, and is about the average of the last five years.

The decrease of nearly 52 lacs is thus accounted for. Grey piece goods were less imported to the extent of 16 lacs, the chief falling off being in Grey T cloths and Jacconets.

White piece goods show likewise a decrease of 31 lacs, principally in White Mulls and Jacconets. Coudree, Percale, Dosootie, Sarasses, &c., make up the difference.

The over-stocked state of the market during the preceding year was in a measure the cause of this decrease.

Flax, Manufactures of.—In former years *Moogtas*, a particular description of dhotee made of flax, were largely imported, which during the year under report have given place to counterfeits of glazed cotton.

Grain and Pulse.—The decrease is chiefly attributed to less imports from Cutch and Kattywar.

In the importation from foreign external ports there is, however, an increase.

Ivory.—The mail service from Zanzibar is availed of for direct shipment to the United Kingdom. There has also been a decrease in re-exports.

Tin.—The imports during the last year being unusually large, the market was over-stocked; hence this decrease.

Paper and Pasteboard.—Although the imports this year are below those of the preceding year, yet they exceed by about 2 lacs the average of the last five years.

Provisions.—The decrease of nearly 4 lacs is chiefly owing to less importation of "dried fruits" from the Persian Gulf during the year under report.

Railway Plant and Rolling Stock.—The decrease is attributable to the works on the existing railway lines having approached completion. Materials for State Railways, which amounted to 15 lacs, are now included under Government stores.

Sugar and Sugar-candy.—The Mauritius crop during the year was not favourable. The shipments were too late to be included in this year's report.

Tea.—Large stocks of 1872-73 were not soon exhausted, and the market remained overstocked; so much so, that some consignments were returned to China during the commencement of the year. There was, however, a brisk demand at the close.

Wool, Raw.—The decrease of Rs. 95,000 is principally in the importation from Cutch and the Persian Gulf.

Woollen Piece Goods.—The glut of last year has interfered with imports this year.

19. The export trade shows an increase of 2 crores and 68 lacs as compared with the preceding year. The increases and decreases are perceptible in the following items:—

INCREASE.

Coffee.—The large imports from the Malabar Coast led to this increase, the half of which went to the Persian Gulf; of the rest France and Trieste took the greater portion.

Cotton, Raw.—This staple, notwithstanding the continued decline in prices in the home market, shows an increase of about 2 crores in value, as compared with the previous year. Regarding this increased value of exports, it must be borne in mind that during the year under report Bombay exported about 2,90,000 bales more than in the year preceding, so that due allowance can be made for the lower home prices, and yet the exports will show a large increase in value. During the first quarter of the year the large business done was owing to the bad accounts of the weather in America, which were then being received. Moreover, during the last quarter of the year, the rate of exchange averaged 4 per cent. and freights £1 per ton under the currencies of 1874, thus enabling a larger rupee price to be paid on this side by exporters than would have been the case had last year's rates been ruling. Continental stocks were allowed to fall very low towards the end of 1874, the prevailing idea being that prices could not fail to give way further in January, February, and the early spring months, but when the American receipts began to manifest signs of a permanent falling off, an entire revulsion of feeling took place, and a largely increased business was done with foreign nations at prices very much better than those ruling in Lancashire. Russia and France indented largely for Indian cotton on this account.

The exports to Germany, which exceed by 14 lacs the exports of the year preceding, were, strangely enough, confined to the first quarter of the year, the remainder of the year showing *nil*. Exports to China have fallen off.

It may be added that the season was favourable and early and the out-turn larger, and that the popularity of the Indian cotton on the continent seems increasing. Many mills, which during the cotton famine adapted their machinery to its use, have continued to employ it.

Twist and Yarn.—The increase is not so much as might have been expected, considering the opening of new mills and the enlargement of old ones. The stock-in-hand is said to be large. The exports to Aden and China are on the increase.

Dyeing and Colouring Materials.—The increase is almost in country-galls to the United Kingdom, where there was a good demand.

Grain and Pulse.—Nearly half the increase is in exports of wheat, which, however, have fallen from 18 lacs to 6 lacs to the United Kingdom. This is owing not to any shortness in the crop, which has been reported all along to be as good this year as last year, but to the high rates of freight charged by the G. I. P. Railway, which prevented its being brought down to Bombay at a sufficiently low cost, at which only it could be exported this year to Europe, where prices ruled very low for some time past. France, which had purchased from this market during the preceding year to the value of about Rs. 80,000, has during the year under report taken an enormous quantity, worth about 12 lacs. The trade in wheat appears to be newly springing up with Trieste. The remaining half is made up by rice to Persian Gulf and other sorts of grain to Mauritius.*

Jute, and Manufactures of.—The large imports led to the increase in exports, which is chiefly to North America, to which, it appears, this class of goods have found their way for the first time. There is also a like increase to Cutch.

Oils.—The whole increase is in jingelly oil to Cutch, Persian Gulf, Mauritius, and Goa. The jingelly seed crop being unusually large, the oil was comparatively very cheap.

Opium.—The comparative cheapness in prices of opium in Malwa, owing to the season's crop being an exceptionally large one, as compared with the year 1873-74, induced shippers to make large exportations.

Seeds.—With the exception of the years 1859-60 and 1860-61, the trade in seeds has been larger than in any other year. The state of the cotton trade has been so unremunerative during the last three or four years, that more attention generally is now bestowed to produce. Linseed alone forms two-thirds, showing an increase of nearly 14 lacs. The exports to North America have doubled. There is also an increase in exports to the United Kingdom, amounting to about 6 lacs. The other portion of the increase is in jingelly seed to France, to the extent of 3½ lacs, and to the United Kingdom of upwards of a lac. Jingelly seed offers the most striking instance of increase during the last couple of years, owing to a succession of favourable seasons upon which this crop, from its delicate nature, is more dependant than other kinds, such as linseed, wheat, &c.

* *N.B.*—Since the close of the year under report, owing to a sharp advance at home, the rupee price here has also advanced, and supplies and our exports have also considerably increased.

Spices.—The increase is wholly in pepper, of which large exports were made to the Persian Gulf.

Wood.—The increase is in sandalwood to China, which formerly consumed the best kind of Malabar growth only. Latterly all such wood brought to this market under the name of Guzerat, Rájápur, and Coompta also finds its way to China. The Zanzibar sandalwood alone is not in repute.

Wool, Manufactures of, Shawls.—The increase is principally in exports to France.

20. Against the increase shown in the above items must be set a falling off in the following articles :—

DECREASE.

Cotton Piece Goods.—The Bombay mills have large stocks undisposed of. There has been a decrease of upwards of 3 lacs to Aden alone. It is said that direct imports from America to Aden is the cause of this large decrease to that port.

Hides and Skins.—This trade appears gradually returning to its old level. It rose from 1 lac in 1867-68 to nearly 39 lacs in 1872-73, and has now again declined to the extent of nearly 30 lacs. The factories which were started to meet the extraordinary rise above noticed have mostly been closed.

Tobacco.—The falling off in this trade is to Aden and the Red Sea, to which it is principally exported in its unmanufactured state.

Wool, Raw.—The decrease in imports account for the decrease in exports. There has also been a decline in prices in the Home Markets.
